- Use post it - Silently write your ideas to solve your challenge
- Note one idea per post-it

15:00

4 - Sharing ideas & Building on each other

- Share your ideas - one idea per person at the time
- Build on each others ideas and develop them further
- Moderator to take notes / write on post it
- Discuss & develop ideas further

05:00

5 - Cluster ideas & summary

- Cluster your ideas into groups
- Which ideas are alike?
- Which ideas can build on each other?

Some brainstorming tips & rules

Combine the understanding you have of the problem space and people you are designing for with your imagination to generate insight-driven solutions.

- Defer judgement
- There is no right answer
- Go for quantity not quality
- You are exploring possibilities
- Build on the ideas of others
 - Encourage wild ideas
 - Try to have fun.
 - Be visual

Die Frage / the question

Was gefällt Dir an der Idee oder was magst Du nicht an der Idee? Wo und wie würdest Du beginnen, wenn Du die Idee umsetzen müsstest?
 What did you like or dislike about this technology / idea / proposal? Where & how would you start if you had to implement this knowledge/ technology?

Step 3 - Brainstorming
choose one box, write your name on top, write into stickers

Step 4 - Sharing & discussion - present your idea, discuss about it, build on it

Step 5 - Clustering & Summary by moderator

Your team board
 Choose your box
 Write in name on top (double click on name field)
 Click on post it and write in
